DESCRIPTION OF NORD STAR 28 PATROL

The Nord Star 28 Patrol is designed for both recreational boaters and those who need a good work boat. It is built to travel in large waters, making it an excellent choice for activities such as offshore, fishing, cruising and professional use.

Built with a deep V hull design which contributes to its excellent sea keeping ability and comfortable driving in rough conditions. The construction is robust and uses high quality materials designed to withstand harsh marine environments.

Although it is a boat designed for durability and functionality, comfort is also a priority. The boat has sleeping places for 4 people, a kitchenette (kitchen) and toilet. This makes it suitable for long overnight trips.

This Nord Star 28 Patrol is equipped with a Volvo Penta D6 DPHS - 330 HV (Diesel) engine which has been driven for 900 hours.

The boat has been stored in a warm hall and serviced annually.
