DESCRIPTION OF ARCONA 430

Here is the opportunity to acquire a fully equipped beauty from Arcona, as fast as she is beautiful! This 2009 Arcona 430 has been outfitted for blue-water cruising and is now ready for new adventures.

The Arcona 430 was awarded the prestigious European Yacht of the Year title in 2009. The jury's citation praised the boat's stunning lines as well as her fantastic sailing characteristics and build quality. The Arcona 430 is designed and built for those who dream of traveling comfortably, quickly, and in style across open oceans as well as in local club races through the archipelago.

The boat is thoughtfully laid out with three separate cabins, each featuring a generously sized double berth. Two heads and ample storage space contribute to a comfortable life aboard, even with family and friends on board. The saloon and galley are spacious with room for many, and the galley is perfectly designed for cooking while under sail.

In the cockpit, the sailing DNA that permeates so much of Arcona's boats is evident. Winches are placed right where you need them, there is excellent visibility for the helmsman, and comfortable benches provide good seating even when heeling.

This is Arcona 430 hull number 12, and she has recently returned from a round-trip Atlantic crossing. The boat has undergone a full detailing since returning and is now looking better than ever!

In recent years, the boat has received extensive upgrades, including a newly installed bow thruster, an electric main halyard winch, a power supply system with solar panels and a hydrogenerator connected to a lithium battery bank, new navigation electronics, and more.

A boat well worth seeing, welcome to book a viewing today!
