DESCRIPTION OF BIANCA 107

Bianca 107 is a 10,70 m long, beautiful and fast sailing boat. The displacement of 1.80 m provides both good sailing and is not too deep for any harbour. This boat is from 1986 and was built by the renowned Bianca shipyard in Rudkøbing, Denmark. The boat has beautiful lines signed by Jan Kjaerulff and was built with the highest quality by Bianca with beautiful teak interior.

She has excellent sailing qualities and the whole boat oozes quality. The interior is strikingly modern with the toilet on the port side at the companionway and a substantial aft cabin that spreads throughout the cockpit.

This example has been both cared for lavishly and updated in several crucial ways under current ownership, including removal of the old teak deck and replacement with a new plastic deck with a straw pattern, new 2008 Yanmar 30 hp engine, fine sails from North, new Furlex and rail for the self-tailing jib (see equipment list for full details).

"A lot of boat for the money" may sound like a worn-out expression, but here it really fits perfectly. She is ready to safely let you explore the seas.

Båtagent appeals to all boat owners and speculators to follow the recommendations of the Public Health Agency, to refrain from approaching boats for sale unless you are healthy, to keep your distance and avoid touching. Please note that the buyer's duty of examination remains.
