DESCRIPTION OF REGINA AF VINDÖ 43

Regina af Vindö is a high-class quality boat built in Orust, Sweden to take you sailing anywhere on all seas in comfort and safety in all conditions.

A Regina Af Vindö 43 meets up the highest Swedish boatbuilding knowhow and craftmanship. Equiped with top notch materials and gears, built to last, you will enjoy the sailing experience you are dreaming of!

The 360 deck salon provides the best view to enjoy scenaries and sunsets while dinning, or will be of great support en route while the weather gets colder and rainy.

Moving around on board is easy, thanks to the wide slatted decks and grab rails that are found in the right places. Furling mast, bow thruster and a very powerful engine make the boat easy to sail and maneuver for the smaller crew.

Below deck, in the salon, there is a nice sofa with a table for dinner, or socializing on the starboard side. On the port side, a substantial navigation table, electrical central and the inner helm station. Half a flight of stairs down towards the bow, a large galley on the starboard side and a small sofa on the port side. The kitchenette has well-sized storage spaces, a large work surface and a cold box as well as a refrigerator. In the front toilet there is a really comfortable and spacious shower. In the bow, a nice guest cabin with good storage.

Aft a well-proportioned owner's cabin with its own toilet. Plenty of storage in the wardrobe, cupboards and shelves.

Below deck there are plenty of social areas. The large windows allow plenty of light into the deck saloon, which accommodates a sofa with table and navigation table. Downstairs we have a large kitchenette with oven, stove and generous storage space. Opposite the galley, on the port side, there is a sofa with a table. In the bow we have one of the boat's two cabins. A spacious cabin with a double bed, plenty of storage space and its own toilet. The owner's cabin, located at the stern of the boat, is spacious with its own toilet and shower.

After a circumnavigation with the first owner, this boat is being sold by its second owner and is in good condition. Some updates have been made, as you can see in the specification and update lists. The boat has been serviced, bottom painted in July 2024 in Savona and is delivered ready to sail. A hull inspection has been performed while on land, the report is available in request.
