DESCRIPTION OF HANSE 350

Hanse Yacht was founded by Michael Schmidt back in 1990 and in 1993 he introduced the first sailboats with self-tacking jibs, which later became a trademark for the Hanse boats. A number of models were developed until he in 1999 entered into a collaboration with Judel / Vrolijk Co who created what particularly characterizes Hanse Yachts – fast boats, simple sailing, flexible and innovative and spacious accommodation options.

The Hanse 350 was developed in 2007/8 as a model between the 320 and 370 model. The boat quickly became a great success due to its unique sailing characteristics, spaciousness and design.

This Hanse 350 is one of the early ones, where the seller chose the early version with the toilet in front, which allowed for an extra smaller aft cabin, which could also be used as a huge storage room for extra sails, bicycles, packed inflatable boats, paddle boards or whatever you might need on the longer holiday journey.

The advantage here is, that you can walk into the storage room/cabin, just as you have access from the cockpit locker as well. Several buyers converted this cabin into a combined guest room and workshop for their journey across the Atlantic and beyond. The possibilities are many.

The current owner has taken good care of the boat, and it is now fit and ready for its new owners.

Take a look at the detailed equipment list, which you can download as pdf and do feel free to contact the responsible yachtbroker Michael at michael@baadagent.dk or via phone +45 2148 8880 for further information or to arrange a viewing.
