DESCRIPTION OF FAURBY 396

Here we offer a very special edition of Faurby 396 - "Jesper Bank Edition", where nothing has been compromised. Neither in terms of comfort nor sailing performance.
The boat is built with a focus on weight optimization and equipped with a carbon fiber mast and boom and a very efficient torpedo keel and deep rudder, which means a boat in fine balance and easy to maneuver. Also, for the engine and in port maneuvers, you are well helped by the efficient 4-cylinder Volvo-Penta with 39 horsepower and an efficient Side Power bow thruster as well.
The accommodation is made of the finest teak and no expense has been spared on the teak, where everything is made according to the best craftsmanship traditions.
The boat has had only 1 owner, who has looked after and cared for the boat and continuously kept it updated. The boat has been sailed only by the owner.
The boat appears everywhere well maintained and the teak deck and teak cockpit also appear in neat and well-kept condition.
The boat has had the freeboard and coach roof sanded and polished, as well as ceramic sealing.
The bottom has been cleaned and 2 extra layers of primer applied before new cobber coating antifouling.
The carbon fiber mast and boom have been given new clearcoat paint.
The interior is made of beautiful matt lacquered teak veneer and is built with a 2-cabin layout with a closed aft cabin on the port side, as well as a closed toilet and extended shower area aft on the starboard side. A well-arranged pantry and spacious saloon, as well as a closed cabin with a double berth in the bow.
As can be seen from the attached equipment list, the boat is continuously updated, and many investments have been made in recent years.
Except from one race Funen round, the boat has never raced.
A high-quality boat with an emphasis on great sailing pleasure, comfort and simple handling – launched and ready for new adventures with a new owner.

Faurby 396 DKK 1.495.000 From 2011

Specifications:
LOA 11,98 m
