DESCRIPTION OF STOREBRO ROYAL CRUISER 34

The first version of the 34 was produced in 1966, and the second version like this one, started in 1975 for which hundreds were produced. Built with a hull in glass fibre, a deck in mahogany, a glass reinforced plastic sandwich on the cabin roofs, and a beautiful mahogany interior, the charm of this boat talks for itself.

The story of this boat is special, since after a fire onboard, the boat has been entirely rebuilt in 1990 according to the original specifications and got 2 newly overhauled Perkins engine 175 hp. Since then the boat has been well maintained and is now waiting for its new owner.
