DESCRIPTION OF LUFFE 40.04

The Luffe 40.04 is a performance/cruiser with a strong emphasis on performance. Once you have cast the moorings and the sails are set, you experience the great speed potential and you want nothing more than to just sail. And if you like racing, there is a chance to win many races with a Luffe 40.04.

The boat was designed and developed in 2005 and is one of Oluf Jørgensen's most successful and popular designs. The boat is incredibly easy to sail in all kinds of weather, and the interior is functional both at sea and in port, and as always in Luffe Design very pleasant and inviting, built from the best materials based on a standard concept, but with room for the customers' individual wishes regarding materials and composition.

The housing in this edition is made of the most beautiful American cherry you can find. The equipment list is long and can be downloaded in pdf above.
