DESCRIPTION OF HALLBERG-RASSY 45

The Hallberg-Rassy 45, the first ever designed by German Frers quickly became a reference in the Bluewater cruisers when it was launched in 1988 and 71 boats were built between 1988 to 1996. For the first time when Divinycell was used as an insulated material for the hull. This boat has a fin lead keel and sturdy hull stiffener along and cross the boat. If you want the perfect combination of good sailing performance and the comfort onboard, she is the one. With its 3 cabins, 2 large sofas, 2 heads, this is a yacht you can live on.

After starting his life in Scotland, the boat came back to Sweden and got totally refitted by its 3rd owner under a warm shelter close to Orust for 10 years! The refit has been done according to the state of the art with local craftsmanship.

The boat is in very good condition, and every part of the boat is either new or has been overhauled: teack deck, sails, epoxy, sea cocks, electronics, engine...see all the details in the equipment list.

This Hallberg Rassy 45 is ready for show In Limhamn near Malmö and to cast the line for her next destination.
