DESCRIPTION OF NIMBUS 250 R

The Nimbus 250 R is a Swedish quality boat with highly refined handling and driving characteristics.

The boat is perfectly suited for both sporty day trips and weekend getaways for a couple. In the bow, you will find a spacious sleeping cabin for two and a separate enclosed marine toilet with a shower.

The boat's galley is equipped with a stove and a refrigerator. Additionally, the boat features a heater, water heater, shore power, and a radio. Safety is further enhanced by a fixed VHF radio and a remote-controlled searchlight. The open walkaround deck on both sides makes moving between the bow and the stern safe and effortless.

The stylish finish and teak deck bring a touch of luxury to your boating experience, and when needed, the cockpit canopy provides excellent protection from both rain and shine.

The boat also comes with a comprehensive service history; for example, the bow thruster motor and the turbo have been replaced.

This is the perfect boat for anyone looking for a stylish, high-quality, and seaworthy commuter boat or daycruiser.

During the winter season, the boat can be viewed in a heated indoor hall in Forssa. The trailer is sold separately for 4,000 €.
