DESCRIPTION OF HANSE 385

Hanse 385, a modern sailboat for sea and archipelago. The modern hull shape provides both good sailing and volume below deck. This is a 2014 385, very well cared for by its current owner!

Hanse 385 is a modern sailboat designed by Judel&Vrolijk. Here there is a spacy three-cabin layout in a boat just under 40 feet, a "T-layout" cockpit with double steering wheels, fold-out bathing bridge, a nice three-cylinder Volvo Penta D1-30, and mainsail 2017 US Carbon/Twaron 43 sq.m. and a

ST jib 2017 from Boding G2 membrane (Technora) 30 square meters (four battens).

The jib is self-tacking on a roller and the mainsail is stored in a lazy bag when it is not set, all to make the time at sea as easy and pleasant as possible.

The interior of this boat with the many light inlets gives a very bright and welcoming feeling below deck. Ventilation is well provided for with many openable skylights and vents.

Length 11.40 -12m
