DESCRIPTION OF MATHIS 48 STEALTH

Here is the opportunity to acquire a fast boat with great sailing pleasure, of 48 feet and with a displacement of only 4,500 kg, and at a extremely attractive price.

The boat was launched for the first time in 2002, when it only sailed a few test sails.

The boat was then on land until 2021, when it sailed a few transport trips and a few races - about 30 hours in total.

The boat has just been painted in 2024 and in 2021 a brand new Torqueedo Cruiser 4.0 FP electric motor was installed with a complete pod motor system with associated AGM battery pack and with Flexofold folding propeller.

Mainsail, jib, genoa, spinnaker and asymmetrical spinnaker.

A boat that has the potential to reach the finish line first, and where all deck hardware and sails has sailed for a few hours.
