Galeon 360 Fly, 2018

Location: **Haninge**
Price: **3 600 000 SEK (333 878 €/2 495 019 DKK/1 411 430 PLN)**

The first impression when stepping aboard this boat is that it feels very spacious. Plenty of room and a well-planned design, both inside and out. The boat has a very high level of equipment, which has been updated over the years, and some of the electronics are only a few years old.

DESCRIPTION OF GALEON 360 FLY

This is truly a modern design. Large windows allow plenty of natural light, making even the darker details feel bright. The boat is equipped with three separate cabins, each with two berths. The layout is well thought out, creating a spacious feel throughout.

The salon features a generously sized kitchen, making the boat a social space, whether guests are sitting inside or on the aft deck. Below the stairs, directly to the left, there is a double bed with ample storage. To the right, there are two bunk beds, also with plenty of storage space. Opposite this cabin, you'll find a well-sized bathroom with a shower.

At the very front of the boat is the "owner's cabin," featuring a large double bed and extensive storage. The flybridge offers plenty of seating, making it the perfect spot when the weather is nice. The foredeck includes a spacious sunbed with cushions and an elegant pop-up sofa.

A bow thruster and stern thruster make this boat incredibly easy to handle, even in tight harbors and windy conditions.
