DESCRIPTION OF BAVARIA 40 VISION

The Bavaria 40 Vision is designed by the respected J & J Design. A collaboration that has resulted in an extremely well-sailing and at the same time very spacious 40-foot boat with many interior details that make optimal use of the boat's hull volume. Thanks to the coachroof design there is very good headroom in the boat and the many large portlights and skylight allows a lot of daylight below deck. This is a 2-cabin version with a very large toilet and shower.

The boat is based in Northeast Jutland and is on its way home from a summer holiday in the Netherlands. The boat can be taken over immediately in Holland or Germany, or in Denmark when the boat is back at the end of August. Contact responsible broker Lars Legarth for further information and for an appointment to see the boat.
We have the pleasure of offering this rare version of Bavaria 40 Vision. The boat is carefully looked after and constantly updated by the owners. As can be seen from the equipment list, the boat has an equipment level that allows a new owner to sail the boat wherever it wishes.
Large and very spacious cockpit with double steering wheel that allows free passage in the cockpit and a large permanent cockpit table. The boat is equipped wit infurling mainsail and furling genoa. This contributes to the boat being easy to handle, even when shorthanded. Port maneuvers are also helped by the powerful Volvo-Penta diesel engine in conjunction with an efficient bow thruster.
Below deck the boat has a very spacious interior with a nice large salon, large nav station area as well as large well-equipped pantry on the port side, with all comforts. There is 1 good aft cabin with double bed and a spacious toilet with shower aft on the port side. In the bow of the boat there is a large, enclosed owner's cabin.
All in all, a boat that invites you to long stays on board.

Bavaria 40 Vision DKK 895.000 From 2007

Specifications:
