DESCRIPTION OF NIMBUS 380 COUPE'

The spacious and comfortable pilothouse offers room for a larger group and provides unobstructed visibility in all directions. The helm station is exceptionally comfortable, with all controls and instruments easily accessible. Large, opening roof hatches create an almost open boat feel in beautiful weather.
The pentry is well-equipped and easily accessible from the aft deck through a wide sliding door. Forward, there are two large cabins and a toilet with a separate shower area.

The aft deck comfortably accommodates a larger crew for enjoyable meals and can be enclosed in bad weather.

Both indoors and outdoors, there is plenty of storage space and many smart solutions throughout.

Twin powerful Volvo engines ensure excellent performance and reasonable fuel economy.
A bow thruster makes harbor maneuvers surprisingly easy.

The boat is in excellent condition, sold by its first owner, and is very well-equipped (exhibited at the Helsinki Boat Show in 2007).

The Nimbus 380 Coupé is the perfect boat for enjoyable sea voyages, whether long or short!

The boat is available for viewing in Hanko, about 1.5 hours west of Helsinki, Finland.
