DESCRIPTION OF NAJAD 380

Najad 380 from 2006. A yacht that exudes quality and is a shining example of a real Orust boat. Below deck, comfort is high and the mahogany interior is absolutely top class.

To starboard from the companionway there is a large bright toilet with shower. There is also cabinet for wet gear etc.

In front of the toilet you will find the navigation table, which may now be used more as the perfect home office / workplace on board.

The galley is almost ideal and cleverly designed by using the passageway to the aft cabin, as if you were on board a much larger boat. It is well equipped with, among other things, a gas stove with oven, two deep sinks, a large, easily accessible cooler and plenty of smart storage space. There is plenty of space for cooking, and you are safe to stand even when cooking while sailing.

The saloon has a large folding table and comfortable sofas that can be converted into two extra bunks if needed and also used as lake berths.

In the fore cabin there is a double berth and plenty of storage space and a smaller seating area when you need to get dressed or undressed while sailing.

Aft of the galley you enter the bright and very spacious owner's cabin, which has a real double berth to starboard, and another manatee on the port side. Here, too, there is plenty of storage space and a real closet to hang clothes in.

The boat's comfortable center cockpit provides excellent weather protection behind the fixed windshield and large sprayhood. There is plenty of room for four around the removable table, and should you be more, the current owner has had an extra table constructed for mounting on the aft part of the pedestal at Walsted.

The deck layout is almost ideal, with good deck surfaces when you need to move forward on deck, as well as with a large aft deck for staying, sunbathing, etc. From the GTi seats aft, you have a fantastic overview when cruising. With a furling jib, furling mast and electric winches, the stage is set for comfortable sailing, even for the small crew.

In addition, the boat has the fantastic 54 HP Yanmar, which is located in the large engine compartment, which you can "almost" walk into. Here it is easy to carry out service when needed.

This Najad 380 is in very good condition, has been continuously updated, including new sails, AIS and a new plotter. The sprayhood and cockpit tent have also recently been replaced, just as the entire underwater hull in 2022 was scraped to the bottom and rebuilt with new primer, epoxy and antifouling paint at the shipyard. The boat has not had any damage.

The boat is sold by its first owner and has always been stored inside in winter.

See the extensive equipment list, which you can download in pdf above and feel free to contact yacht broker Michael for more information, or to arrange a visit.
