DESCRIPTION OF ARCONA 430

We’re now selling Nika! Grandchildren and, for us, a new summer house in the Stockholm archipelago mean we simply won’t have the time to sail. Our beautiful Arcona 430 needs a new home.

Nika was originally built for an employee at Arcona Yachts, who sailed her for twelve years. He made sure everything was installed to perfection with no compromises. The boat is truly "fully loaded" in terms of performance trim and sailing efficiency, as well as comfort for cruising. Nika (formerly Wilma) won the Gotland Runt Regatta in the double-handed class in 2018. She’s an excellent sailing yacht that’s easy to handle with just two people.

Here’s how the model is described by Arcona in the UK:
"The 430 was the 2009 European Yacht of the Year, applauded as the ideal cruiser-racer, combining race-winning speed and heart-warming comfort."

Registered under call sign SFE-5253.
Three cabins, two toilets, shower, heater, hot water. Additional insert to create a double berth in the saloon. Sea berths neatly hidden beneath the cushions. Autopilot, plotter/radar, VHF, Efoy fuel cell, carbon fiber wheel from Marström, cockpit enclosure, electric anchor windlass with chain in the bow, and much more.

Many upgrades between 2023–2025:
New instruments (Alpha 7, installed 2025)
Plotter/radar (Axiom 9)
Solar panels bonded to the coachroof
New SD-60 saildrive
LED lighting with USB outlets
Stereo with Bluetooth, and more

Sails from UK Sailmekers:
Mainsail and jib (110%), UK X-drive, carbon, LightSkin
Light-wind genoa
Code Zero
Spinnaker
Storm jib on removable inner forestay in Dyneema

Note: The ash wood floor gives a bright and personal touch.

Full specifications and equipment details can be found in the PDF equipment list.
