DESCRIPTION OF HANSE 348

Modern design features such as twin helms, self-tacking jib, and a wide stern with twin aft cabins make this a very popular boat for both larger and smaller crews.

This yacht is in very good condition. It was purchased in 2019 and spent its first season in charter. Since then, it has been privately used from 2021 to 2024, with one season stored on land.
The boat is well-equipped with essential comforts, including heating and a hot water boiler. The engine has been serviced annually, and in 2025, a new propeller was installed. The hull has been polished and freshly antifouled.
The sprayhood and sails date back to 2019; the sprayhood will soon need replacement. There are also two new covers for the steering wheels.
The yacht is equipped with all the necessary safety gear required for the Polish "karta bezpieczeństwa" (safety certificate), making it suitable for commercial use. This also ensures high safety standards for private cruising.
Currently on shore in the marina in Szczecin, the yacht is available for viewing. We can also assist with arranging a mooring space in Szczecin if you wish to keep it there.
