## DESCRIPTION OF PRINCESS 430

---

Princess 430 from 1998, The yacht has only sailed 980 hours.

This yacht is probably one of Princess yachts' most popular, combining the well-known Princess design, layout, quality and space with simple handling for a small crew in the smaller Danish and Swedish waters and ports.

There are not many such motorboats on the market, and this one is also in excellent condition, and extraordinarily well maintained.

Princess Yachts are always sought after, known worldwide for their quality, functionality and comfort. Therefore, these are also sold to buyers from all over the world. This Princess 430 is really nice, and it has been bottom painted, polished and cared for on an ongoing basis. Always been ashore during winter.

The owner has really invested heavily in the boat and has made sure that it is very well maintained. There is standing height everywhere, and you will love to sit in port and enjoy a cup of coffee with friends on the "flybridge", or on the lovely veranda aft. The wood in the salon, interior, etc. is really stonishing.

The boat has new carpets and air conditioning in the saloon and cabins, which guarantees complete comfort.

This Princess 430 is equipped with the more powerful and reliable Volvo Penta TAMD 73P, with 430 hp each. It has a bow and stern thruster with remote control and a very nice Benzoni gangway, which ensures easy access when the boat is moored stern to the quay.

Below is a small selection of additional extras:

Air conditioning in the saloon and cabins. Delicious teak wood floors in the pantry and hallway with easy access to extra storage. Bow and stern thrusters with remote. Electric windlass with remote control. Koehler Diesel Generator. Miscellaneous canopies. Full winter cover.

With this example, you get a unique opportunity to own a rare and extremely well-maintained Princess 430.
