DESCRIPTION OF COLVIC SUNCRUISER 35

A Colvic Suncruiser may not be among the most well-known brands but can be compared to other finer English motor yachts such as Princess and Fairline.

This Colvic is in a very nice and well-maintained condition. The engines have only 1,815 operating hours and have just undergone major maintenance, where the engines have been straightened, and the shaft bearings and shaft seals have been replaced.

The boat is equipped with space for 4-6 overnight guests. From the aft deck there is access to the salon where there is a sofa and space for extra chairs around the table.

From the salon there is access to the galley. Here there are both 3 gas burners and a microwave/oven available. There is of course a refrigerator as well as cold and hot water.

Further forward in the ship there is access to the two cabins and the two toilets. In the front cabin there is a large double bed and good closet space. There is direct access from the cabin to the private bathroom with toilet.

The smaller cabin has room for guests or children.

Opposite the smaller cabin is the second bathroom also with toilet and the possibility of a bath.

Back on the aft deck, where there is easy access from land, there is room for a table and chairs for the crew and guests. From the aft deck there is access to the side deck where you can safely get to the foredeck.

From the aft deck you also get to the boat's flybridge. From here the boat can be navigated safely from port to port while the rest of the crew enjoys the trip. If the weather is not good for the flybridge, you can navigate comfortably from the salon.

All in all, this Colvic Suncruiser 34 contains all the comfort a family could want. The boat is ready to sail on in and enjoy life in port and at sea.

The boat can be seen in Faaborg, where it is stored indoors during the winter.
