## DESCRIPTION OF X-YACHTS XC 38

---

The X-Yachts Xc 38 is a cruiser where comfort and sailing performance are perfectly balanced. Designer Niels Jeppesen has shaped the hull with deeper V-sections for both stability and agility at sea. With generous storage, large tanks and carefully considered weight distribution, the model is built for longer passages yet remains easy to handle even with a small crew.

This example is offered by its second owner, who has had her since 2015. It comes extensively equipped with anchor windlass, bow and stern thrusters, gennaker, heating system, electric toilets, the larger Volvo Penta D2-55 engine and much more. With two cabins and a specification tailored for comfortable cruising, this yacht offers everything you need for long and enjoyable voyages towards the horizon.

This yacht has the shallow keel with a draft of about 1.65 m, giving you access to many shallow harbours.
