DESCRIPTION OF OMEGA 42

Imagine a gentle breeze, a rippling crosswind sneaking along cobs and cuts, a few quick tacks past shoals and bays, sitting in the lee, with your hand trailing in the warm water. The sun is going down, but the summer night is short and sailing in the silence of the June night until dawn is too few to experience.

And with a jolt I wake up from my daydream, work work work, boat ads must be made, some more inspiring than others, and if it weren't for my considerable shack I would have bought this beauty any day of the week. But now some less well-built sailing enthusiast gets the chance to acquire a piece of Swedish sailing joy.

A little fact, built between 1994-1998, hull, deck and base interior were built by professional boat builders. The design and construction of all wooden furnishings is carried out by the owner.

The woodwork and the varnishing are absolutely Orust class, i.e. top notch in other words. Assembly of interior and interior constructions has been done with help from the same shipyard that built the Scanner boats. Electrical installations are made by electricians.

FACTS

Löa: 12.80m

Lvl: 10.00m

Width: 3.10m

Depth: 1.70m

Depl: 7,400kg
