DESCRIPTION OF MALÖ 106

Malö 106 is built at the Malö boatyard on Orust, the island which is known as the home of Swedish boatbuilding tradition and quality through generations. The Malö 106 is no exception. The boat is built in the best materials and to a high standard of craftsmanship throughout. Both the hull and teak deck are in good condition, and the deep cockpit provide good protection, not least due to the permanent wind screen, permanent targa hanger and the large sprayhood. The targa hanger with integrated mainsheet traveler provides a clean and safe cockpit

Below deck, the boat's volume is fully utilized with a traditional layout, not least considering the size of the boat. To the starboard side of the saloon there is the pantry. To portside the toilet with access to the aft cabin, which also has access from the cockpit. There is a large U-shaped sofa with a large salon table. At the front of the boat there is an enclosed cabin with a double berth.

A quality boat with many valuable upgrades resents years.
