DESCRIPTION OF ARCONA 430

The boat is family-sailed and has never been raced. This is evident in the consistently good condition both inside and in the cockpit and on the deck and hull. All comfort: electric winches, windlass, bow thruster, UK-Hydranet sail, stackpac with lazy-jacks etc.

This is how the boat model is described by Arcona in the UK: "The 430 was the 2009 European Yacht of the Year, applauded as the ideal cruiser-racer, combining race-winning speed and heart warming comfort."

The current owner is the second owner and he has had the boat for ten years. When new, it was sold to a Danish buyer who unfortunately became ill, which is why the boat was stored on land for two years before Arcona Yachts passed the boat on to the current Swedish owner.

Sails from UK-Sailmakers. Mainsail and jib (106%), Hydranet. This is the UK's most exclusive cruising sail with very long durability and folding. Also suitable for long sailings to tropical waters - can handle sun, salt and rough seas.

Note: Extra sails can be purchased as below.

A gennaker with sock from the boat's current owner, used but in good condition.

From another former Arcona 430 owner there are the following sails:

Genoa 1 in carbon/lightskin. This sail has never been used.

Genoa 2 kevlar/carbon used but in good condition

Light wind spinnaker, good condition

Staysail on furling for downwind, used twice

From UK Sailmakers

The boat is delivered completely Ship Shape in Stockholm. All you have to do is sail away.

Details and facts can be found in the equipment list (PDF).

Captions with descriptions are in a separate PDF file.
