DESCRIPTION OF DUFOUR 40 PERFORMANCE

The Dufour 40 Performance, designed by Umberto Felci, features a modern design and stands out for its fast and well-balanced sailing characteristics. Thanks to its easily driven hull, tall rig, and optional deep lead keel, it delivers an ideal balance between performance and comfort. This well-maintained and upgraded yacht is perfectly suited for both family cruising and competitive racing. With generous interior space, smart storage solutions, a spacious galley, and large freshwater and diesel tanks, it's an excellent choice for extended holidays. The light and roomy interior has a well-planned three-cabin layout. This particular example comes with two optional electric winches and upgraded sails — in short, a well-equipped yacht ready for new adventures.
