DESCRIPTION OF BENETEAU OCEANIS 323

The Beneteau Oceanis 323 is part of the Oceanis Range from Beneteau in which Beneteau has combined very good sailing conditions with the comfortable live aboard ability a majority of its customers wants. The model has its offspring from the hull that Groupe Finot and Jean Berret designed in the early 1990s for Beneteau's single-handed offshore racer, the Figaro.

Since then it has been used for two other sporty Beneteau's, the First 310 and First 31.7, as well as the Beneteau Oceanis 323's predecessors in the Oceanis range, the 311 and 300.

Only tweaks to the bow, stem and topsides have been made to now suit the design in question, but the underwater sections have remained unchanged.

This model is from 2006 and has been equipped and taken care of by its sole owner with everything you need for easy sailing and long stays on board.

The boat has been upgraded with bow thruster, fully battened mainsail in an easypack system, a large bow sprit / entry platform and a huge almost new sprayhood and cockpit canopy. The main sail and the gib is from 2017 and since then only moderately used. The Genakker has been out of the bag only a very few times, which means there are no major investments to be made.

Access to the boat is easy both from aft via the bathing platform through the cockpit due to the special developed system for turning the helm by 90 deg and from the front via the special designed bow sprit/platform.

The cockpit is large and easily fits an amble crew both at sea and in port around the two size cockpit table with a bespoke additional table made for the larger meals and party on board. Below you will find an incredibly spacious and bright cabin, due to the plenty portholes and topwindows well known on the Oceanis Range from Beneteau.

The aft cabin to port is the owners cabin in this boat with a very wide berth loads of storage abilities and portholes giving you a feel of a much larger boat. To starboard you will find the very large heads with a separate shower area and even a dedicated space for the wet clothes. You have a large main cabin with plenty of space around the folding table with a number of compartments for ambient storage. Forward a large double berth and amble stowage space as well. In this 2-cabin model you also have a dedicated navigation slot / desk just in front of the heads.

For full list of equipment, you can download the pdf file above. If you need further information, please contact the broker responsible by mail or phone.

Specifications:

LOA.	10,01 m
