DESCRIPTION OF ELAN 434 IMPRESSION

Elan 434 Impression

Well-equipped and comfortable cruiser with excellent sailing performance

The Elan 434 Impression is one of the most successful cruising yachts in her class, combining performance, comfort and practical Scandinavian-friendly solutions. This 2008 example offers generous living space, strong sailing characteristics and a layout designed for extended cruising with family or friends.

With three proper cabins, large tank capacities and excellent deck ergonomics, the boat is equally suitable for longer passages offshore or relaxed cruising in the archipelago.

Cockpit & Deck

The spacious cockpit with twin steering wheels provides excellent control and easy movement. Access aft to the swim platform is effortless, making swimming and boarding convenient. Wide side decks allow safe movement forward.

Sail plan and deck equipment include:

Mainsail

Furling genoa

Gennaker

Selden aluminium rig

Rigid rod kicker with gas spring

2 x Harken B40 winches for mainsail

2 x Harken B46 winches for genoa

The sail handling setup allows comfortable sailing even with a small crew.

Interior

Below deck the yacht offers a bright and spacious interior with practical solutions for comfortable living onboard.

The large galley provides ample storage and refrigeration for longer stays at sea. The saloon comfortably seats the entire crew and the table can be lowered to create additional berths when needed.

Accommodation layout includes:

Spacious aft owner's cabin with plenty of storage and ensuite access to the head

Guest cabin with bunk beds to starboard

Forward cabin with double berth and good storage

The aft head features a separate shower cabin.

The underwater hull and keel were professionally blasted a few years ago and subsequently epoxied, primed and antifouled, leaving the hull in excellent condition.

The boat is ready for the coming season and a summer berth may also be available.

Specifications

Length overall (LOA): 13.40 m

Waterline length: 11.45 m

Beam: 4.18 m

Draft: 1.90 m

Mast height above waterline: 18.37 m
