DESCRIPTION OF JEANNEAU SUN ODYSSEY 319

Jeanneau Sun Odyssey 319 represents Jeanneau at its best. Modern, compact, versatile family cruiser designed for comfort and ease of handling, featuring a chined hull, a single-wheel cockpit and a twin rudder which provides exceptional control at every sailing angle, increases safety and redundancy at sea and also reduces any vulnerability when you enter shallow anchorages.

The SO319 has a CE rating of Category A, unlimited ocean, as extra evidence of its readiness for high seas.

On deck the large side deck makes it easy to move around to access areas such as the anchor locker. The standard winches are placed near the helm for easy sail handling with a winch on the coachroof on the port side for the main halyard.

The interior benefits from the modern chine hull which provides an exception level of space and comfort usually found on a larger boat. Standing headroom throughout with bright natural light and views from large hull ports and long coachroof windows. Two cabins with generous room and a modular interior which can offer an additional two berths when needed. Lots of storage and a large central table, a functional chart table, and a clear and accessible electrical panel.

For anyone looking for a modern compact and versatile cruising sailboat, the Sun Odyssey 319 makes for a great boat for a young family or a couple. It would also be a great retirement boat for older sailors looking to downsize from something larger.
