DESCRIPTION OF NAJAD 380 IN CORFU

The Najad 380 was designed by Judel & Vrolijk with the clear vision to create the ideal shape for sailing and the volume necessary for cruising, Slimmer in the bow than most just under 40-footer cruisers and with midsections relatively round to maximize volume. The aft design brings a bit more rocker bringing a comfortable motion in waves and makes the boat easier to turn.

This remarkable center cockpit boat, protected by an efficient combo of windshield/sprayhood provide safety, great comfort and seamanship for island hopping and/or offshore around the world (chosen by Jeanne Socrates for her circumnavigation in 2020). Sailing is easily handled with Selden furling mast, a genoa Furllex on the foremast, and winches from Andersen.

Najadwood's heritage is greatly shown with solid teak/stainless combo on deck/cockpit and inside, with the beautifully hand-polished and varnished to satin finish Mahogany. Wood grains are highlighted, joints are precise, and curves are appealing.

This hull n.54 comes with 2 double cabins, master cabin in the aft, a spacy saloon with two comfortable sofas, next to the large galley leading aft with a standing headroom passageway.

The second owner is now selling a Najad 380 in stunning shape. The boat has been looked after very carefully while being in Sweden, kept in a warm hall, and regularly updated while navigating in the Mediterranean 4 months on sea and 8 months on land since 2018. (see very detailed equipment list).

The boat is ready to continue her journey with you from Corfu/Greece, available for show.

You are welcome to contact jsebastien@batagent.se /+46 730 793930 for more information.
