DESCRIPTION OF NAJAD 391

The Najad 391 is a well-designed yacht and a true quality build from Orust. This is one of the boats built with the slightly larger heads to starboard, together with a separate shower compartment further forward on the port side. This is the most commonly built layout.

This is the boat for those with big dreams, but who perhaps do not enjoy spending their time working on the boat or a fortune on new equipment. Inga is already equipped with a stainless-steel arch with solar panels, as well as a complete watermaker that is approximately 1.5 years old. Of course, she also comes with comprehensive electronics and safety equipment.

As mentioned, we previously sold this boat in 2017, although to the previous owner. The sales prospect from that time can be found under our sold boats section. There is also a video linked to this listing here at Båtagent.

The current owner has also documented his journey on Instagram from beginning to end. You will find the link in the main listing on the Båtagent website.

As is customary with Najad, this yacht is no exception when it comes to craftsmanship of the highest standard, both externally and, above all, in the interior.

What really sets Inga apart is the level of equipment and the quality of what is installed on board.

The video below is from when we last sold this beautiful yacht.

What really stands out about Inga is the level and quality of her equipment. The video below is from when we previously sold this beautiful boat.

Najad 391 Inga is ready for her next adventure. Are you?
