The boat is solidly built and fitted in the highest quality teak. The boat has been on land under tarpaulin for the past 10 years and appears dry and in original and generally good condition, but needs a major renovation, after 10 years of standstill. All equipment is available for the boat and is stored in a heated hall throughout the years. The engine has just undergone a service check by authorized engine company, where the engine has been reviewed, has been started up and compression tested. There is an invoice and a description of the engine condition.

DESCRIPTION OF VAGABOND 52 KETCH

This is a large solid and very spacious and seaworthy boat designed and built for Blue Water cruising. A boat that will be just as suitable as a living boat, as for longer stays in the Scandinavian waters, or for the big circumnavigation.

Below deck the boat is equipped with a large saloon containing a short table and a large pantry. Aft is large, enclosed master bed room with private toilet and shower. At the front of the boat is a closed cabin with a double berth, as well as another closed cabin with bunk beds. In connection with the cabins there is a toilet with shower. Everywhere there is plenty of space and plenty of cupboards and drawers. The entire accommodation is made of beautifully processed quality teak.

A boat with great potential for the right buyer, and where the price is set after investing several hours in the boat.
