DESCRIPTION OF BAVARIA 34 CRUISER

Bavaria 34 Cruiser. 3rd generation of the incredibly popular 10-meter boat from Bavaria. The model is the latest edition and is already one of the most popular in the Cruiser series. The boat has been developed primarily for family sailing, but in this latest edition Bavaria has designed a boat that sails really well in all kinds of weather and can easily be handled by a small crew.

This model is from 2018, but only launched in June 2019 and has been equipped by its sole owner with everything you need for easy sailing and long stays on board.

The boat has been upgraded with the larger D1-30 engine from Volvo Penta, the mast is from Selden with furling mainsail and RodKick, it has double steering wheels from Jefa, which makes access to the swim platform during anchoring and mooring a breeze, just as sailing close hauled is easy to manage, as you sit well on the side and steer on both sides, and in addition the boat has received the large electronics package from Garmin.

Access to the boat is easy both from aft via the bathing platform, from the front via the special designed platform attached to the anchor rail, and if you are moored longship to this is no problem, as the boat is also equipped with rail gates amidships.

The cockpit is incredibly well layed out with a fantastic fixed table with folding tabletops. In addition, the owner has purchased the extra large high quality cockpit tent with standing height and equipped the cockpit benches with delicious bespoke cushions from Kapell & Annat. Cockpit has teak on all surfaces, which all looks like new.

Below deck you will find an incredibly spacious cabin, with a huge starboard aft cabin with extra window in the hull – making this cabin incredibly bright. You will find the very large heads with shower to port. You have a large well-equipped pantry on starboard, where the current owner has chosen not to use the gas stove, but an electric one. (The original stove will be mounted at launch). You have a large main cabin with plenty of space around the folding table with built-in drawers and compartments for ambient storage. Foreship a large double berth and plenty of stowage space as well. In this 2-cabin model you also have a dedicated navigation slot / desk.

This boat has not sailed much and always stored indoors from October to April. Owner unfortunately has to go ashore and has to part with this lovely boat. Can be viewed at inside storage until 14th April when she is planned to be launched.

For full list of equipment, you can download the pdf file above. If you need further information, please contact the broker responsible by mail or phone.
