## DESCRIPTION OF BAVARIA 34 CRUISER

---

Bavaria has again managed to create a bright and modern boat that still has plenty of wooden surfaces to give a cosy feeling. Spacious cabins as well as a large salon, practical pantry and big toilet with shower make this a very comfortable boat for longer trips.

The cockpit is also spacious with a large cockpit table and long benches.

For enjoyable sailing, the boat has upgraded winches, German sheeting system and normal, efficient mainsail as well as a fairly new roller genoa.

The shallow keel also provides the opportunity to explore fairways, lakes and ports where other boats can't sail.

For easier harbor maneuvers it has a powerful bow thruster.

The boat is very little used, only just over 300 engine hours and extremely well maintained. No grounding and always winter stored in warm hall.

The price has been reduced 3 000 euro to compensate for the main sail that has to be renewed!

### FACTS

Manufacturer: Bavaria Yachts / Germany

Length: 10,72 m

Width: 3,60 m

Depth: 1,57 m

Displacement: 5 700 kg (empty)

Engine: Volvo Penta D1-20
