## DESCRIPTION OF ARCONA 430

---

The layout is classic and well-functioning with very beautiful wooden surfaces, but still feels modern thanks to the light materials. In the bow there is a luxurious owner's cabin with its own toilet and shower. In the aft 2 large cabins for the rest of the crew and another toilet with shower. The width, height and light of the salon create an open atmosphere and provide space even for a larger crew.

The L-shaped pantry is super for cooking even while sailing and there is a practical navigation table that also can be used as an "on-board office".

In the cockpit, the entire crew sits comfortably around the large, fold-down table.

The wonderful sailing characteristics make the boat truly competitive on the racetracks, but are of course also of great joy for the demanding family sailor who enjoys speed and "feeling".

This particular boat was nominated "Performance Cruiser of the Year in Europe 2009" and has also been used in the Arcona 430 brochure!

The boat is now stored for the winter in a warm hall in Lovisa, 1.5 hours east from Helsinki. The price includes lifting and launching, storage in a warm hall, engine service, bottom painting, waxing and the boat ready to sail in spring 2023!
