

This is a boat where there is no compromise on quality and sailing performance, and without distinction to price. The Olsen 370 is a beautiful boat with an efficient design that tastefully pays homage to clean modern lines, and with a simple and well-thought-out deck and cockpit layout that allows one person to sail the boat efficiently. Truly a boat for the discerning and quality-conscious sailor who wants a boat with a design that stands out from the crowd.

DESCRIPTION OF OLSEN 370

Olsen 370 DKK 1.195.000 From 2014

Performance and aesthetics permeate the boat, which with its large and well-appointed teak clad cockpit, matches the boat's deck, and the open and minimalist design below deck, all invites to many hours on the water and stay on board for a longer holiday, which is supported by the boat's high-speed potential.

The advanced hull and keel design, combined with an efficient sail plan, gives the boat a high-speed potential in all conditions, while the boat is rigid and directionally stable. The clever layout makes it a real pleasure to sail the boat. Great sailing pleasure, and an efficient engine, for harbor maneuvers and when the wind fails.

All in high quality, from the efficient torpedo keel, the vacuum-infused hull and deck, to the teak covered deck and cockpit and the beautiful mahogany interior. And where all deck equipment is likewise from the top shelf.

Below deck you get the impression of being on board a somewhat larger boat. The open layout is translated by a fine composition of mahogany, sandblasted acrylic, white hull garnish and the black leather-covered bunks. Everywhere quality materials have been used and the standard of craftsmanship is high.

Although the idea behind the construction was originally to design a beautiful and fast, high-quality performance cruiser for shorthanded racing and weekend trips, the boat with its spacious and deep cockpit and the surprisingly spacious cabin, with a well-proportioned pantry and toilet, has the potential for much more.

This Olsen 370 is from 2014 and has building number 5. A total of 6 boats have been built, of which 4 sail in Switzerland.

All in all, the boat appears in nice well maintained and updated condition. The boat has been stored inside every winter and has had the same owner from new.

A well-maintained one owner's Olsen 370 to be experienced. The boat is ready for new adventures with a new owner.

Olsen 370 DKK 1.195.000 From 2014

Specifikationer:

LOA 11,50 m

LWL 10,00 m

Beam 3,20 m
