DESCRIPTION OF LINNSEN GRAND STURDY 299 AC

This boat is a smartly designed and powerfully constructed in the Netherlands. The finish is consistently of high standard and this example has been well cared for over the years. The boat is propelled by a 55 hp Penta which gives a comfortable cruising speed of 6 knots and good fuel economy.

Below decks there is a generous forward cabin with toilet and shower in separate compartments. Along the stern is another cabin with a double berth and a large wardrobe. The saloon and galley upstairs are the heart of the boat, with enormous light and great views through the large windows. The "top floor" cockpit is large and comfortable even on rainy days thanks to the standing-height canopy.

In summary, this is a well-built steel boat, made for long and wonderful holidays at sea. There is plenty of room for the whole family!
