DESCRIPTION OF SWEDEN YACHTS 42

Owning a Sweden Yacht 42 is an absolute dream that can now become your reality! This is one of the most beautifully designed 42 footers with its classic lines and perfect dimensions that create balance in both looks and sailing characteristics. The boat sails well and can withstand rough weather as gallantly as a calm breeze in the archipelago.

Below deck, the boat is light and spacious. In total there are three separate cabins, each with a double berth. The owner's cabin at the bow has its own toilet and large shower, while the two aft cabins share the toilet, which is located directly to port of the companionway. To starboard of the companionway is the galley with its double hooks, newer gas stove with oven, large fridge etc. The saloon consists of a substantial U-shaped settee and an impressive saloon table. Opposite the sofa is the navigation station with a large storage area.

When looking around the boat there are the many stowage compartments which are unusually easy to access and larger than on most other boats. There's enough room for all your gear on long voyages across deep seas!

This model has been well cared for and was sailed by the first owners since she left the yard in 2008. The level of equipment is high and things that were old have been continually updated to keep up with modern standards and high quality. For example, the boat is fitted with new X-Drive sails in 2021, new Raymarine instruments in 2020, new stove with oven in 2020, etc.

Sea inspection has been completed and the boat is ready for a new owner!
