DESCRIPTION OF SEA RAY 360AC

The Sea Ray 360 AC is a solidly built and well-constructed and well-proportioned quality boat that is spacious also in relation to the size of the boat. The boat was very popular when launched in the late eighties and through the nineties. The design still keeps its longitudinal today, where it is still an attractive boat in the secondhand market. Here we offer a boat in very well maintained and updated condition.

The construction is distinguished by being able to sail at a displacement speed of 7-8 knots and with a cruising speed of 15 knots as well as a top speed of about 23 knots.

The boat has had the same owner for 16 years who has looked after and cared for the boat, and today it appears in great condition ready for new adventures. Among others new custom-made windows have just been installed throughout the salon, new blinds and curtains, as well as new carpets in the salon. In addition, new mattress, and top mattress in master bedroom as well as new cushions on fly bridge. And not least new engines in 2011, and new CE-approval.

You enter the deck saloon via a sliding door from the aft deck. The salon offers a lot of space with good daylight from the large windows. The salon is dominated by side groups in both starboard and port side and steering seat ahead in the port side. 2 steps down the starboard, the boat's spacious pantry is located equipped with all amenities such as induction hobs with 2 zones, new large refrigerator/freezer 220V/12V and 220V oven as well as good cabinet and drawer space. Forward is the master bedroom with a large freestanding double bed, wardrobes and drawers, and with a large heads with a separate shower compartment.

From the deck salon there is also access to the aft cabin. The aft cabin offers plenty of space with 2 good bunks, a private head and plenty of stowage space.

From the aft deck, equipped with table and chairs, there is access to the flybridge, which, in addition to the steering position with 2 separate chairs, is also equipped with a smaller seating sofa.

The width side deck with access from the aft deck in both starboard and port side, makes it easy to get around the boat, which also offers a large front deck suitable for sunbathing.

A very spacious 36-foot boat also suitable for more permanent living.
