DESCRIPTION OF COMFORTINA 39

This boat is an efficient yacht with a relatively slim underwater hull and equipped with a carbon fiber rig and new sails. The boat is designed to deliver maximum crew comfort even during longer stays at sea. The headroom is good, the lighting is tastefully done with indirect light from the sides and the woodwork is of highest quality.

This boat was left at the dock and not used for its first two years and has been carefully sailed by two owners ever since. It has been fitted with newer sails, new instruments and a new canopy. The finish on the hull and interior is top notch. In summary, a fine boat for discerning sailors. VAT documents available.
