DESCRIPTION OF BAVARIA 37 CRUISER

With this model, Bavaria has managed to create a 3-cabin boat that feels spacious and light under deck. Two cabins in the aft with good storage and locker. A cozy saloon with plenty of seating for even a larger crew. The pantry has plenty of space and good storage. Further ahead in the boat is the toilet with shower and a spacious "owners cabin".

A nice comfortable family boat that has everything for a successful stay at sea. Thanks to the furling mast and the vertical battens in the main, the boat is convenient to sail. The boat is generously equipped with, among other things, bow thruster and autopilot.
