DESCRIPTION OF DRAGONFLY 28 SPORT

The Dragonfly 28 is a true quality product from the Quornings Boats shipyard in Denmark. The shipyard has been building trimarans and comfortable high-performance boats since the early 1980s. The Dragonfly 28 was launched in 2009 and has become a great success with over 200 boats sold. The shipyard has managed to combine excellent sailing characteristics with a high level of comfort.

Below deck is the spacious salon and a large table where the whole family or crew can sit. The galley is divided into two parts, with one on the starboard side and one on the port side. To port there is a gas stove and plenty of storage in cabinets and shelves. To starboard are cabinets, shelves and a refrigerator. The galley is equipped with everything needed to stay on board. Under the cockpit there is a large and comfortable berth. In the salon there are two more berths. There is also a toilet with a septic tank on board. At the bow there is a nice double berth. The whole boat offers enough storage space for all your belongings.

On deck, the special feature of this boat becomes even more apparent. The spacious cockpit is equally suitable for racing as for relaxing days with the family. The cockpit has two large compartments for lines or other equipment. Under the lid of the stern storage compartment are the controls for the engine. The engine is connected to the tiller, making the boat easy to maneuver in the harbor. On deck there are two built-in trampolines, which makes the boat especially popular with children. For adults, the trampolines also provide a nice place to enjoy the sun.

The entire set is from reputable suppliers and is of the highest quality. This boat has well optimized sail equipment for vacation and racing sailing as well as an approved trailer. All sails have been carefully maintained and have a large area (2021 and jib 2018). The sails are made of carbon fiber. The boat is basically self-sufficient in energy with its solar panels. All bulkheads and running rigging are up to date. The engine has been serviced regularly. The boat shows no marks or dips from moorings or the like. The perfect sporty sailboat to leave the land behind and explore the open sea.

Boat facts:
Hull number: DKQBO28014j910

Length (LOA): 8.70

Length at waterline (LWL): 8.60

Beam: 6.50

Draft: 1.60 (approx. 0.40 raised centerboard and rudder)
