DESCRIPTION OF NIMBUS 305 C

Nimbus 305 Coupé is a true heir to all the successful semi-displacement Nimbus-models of yester year. The 305 C is the smaller sister to the Nimbus 365 Coupé, essentially replacing the Nimbus 335 Coupé. The 305 C has a new, very easily driven hull that moves gracefully through the water through the full register. It is areally nice "vacation cruiser" that works well through petty much all seasons.

The 305 C has the Coupé series really clever "Sidewalk" concept, meaning walk-around on one side of the boat, ensuring safe and convenient passage fore and aft, while maintaining as much width as possible in the cabin byy having the cabin side extent to the side of the boat on the other side.This all yileds a very spacious 30-fotter.

On board you will also find a nice aft deck, with a convenient walk-through to the swim platform, and a sliding door entry to the main cabin which houses an inviting seating area as well as a fully appointed galley. From the main cabin, great views of the outside can be enjoyed form the comfortable and heated inside. Two steps down you find two sleeping cabinbs and a poper wet cell, with toilet and a shower. A very well appoinrted and spacious boat with few equals in its class.

Propulsion with straight shaft, coupled with both a bow thruster and a stern thruster, equals a boat thta is comfortable through its speed register and easy to manouver in port.

More information can be found here https://nimbus.se/boats/305-coupe/ and in the brochure from Nimbus.

This 305 Coupé has one owner since new in 2018, and has been used sparingly. An opportunity to acquire a boat in an almost new condition.
