DESCRIPTION OF NIMBUS 27 NOVA S

The Nimbus 27 Nova S is a quality boat with an acclaimed design that creates both space and functionality. The boat is part of the Nimbus S-series, which stands for "Sidewalk". Instead of the traditional walkaround deck, the designers of this boat opted to add a wider starboard side deck. This makes the boat easy to walk around on and creates a large interior. The Nimbus 27 Nova S is the ideal boat both for longer trips and short stays on board.

On board you will find a galley, a bathroom with hot water, a shower and a heater, which all add to the comfort this boat can offer you. The galley is well laid out with a gas stove, fridge with freezer, sink with pressurized water and plenty of storage space. Opposite the galley is a forward-facing passenger settee and a sofa that can be turned towards the direction of travel, or towards the stern to create a seating area with a folding table in between.

Below decks the boat is surprisingly spacious with a large double berth at the bow, a stick berth amidship and a spacious toilet with a shower in its own lockable cubicle. A shower is also available on the bathing platform.

This model has only had approximately 370 hours on sea and was well maintained by its current owner. The boat is well equipped with bow thrusters, an electric windlass aft with remote control, GPS Raymarine C120 and heater both outside and inside.

You are more than welcome to book a viewing of this beautiful Nimbus!
