## DESCRIPTION OF CONTRAST 345

The Contrast 345 is a fast-sailing cruising boat designed by Rolf Magnusson with special attention to comfort and spaciousness. A comfortable interior in selected silk matt lacquered mahogany provides a unique atmosphere.

The comfortable sofas around the large table seat the entire crew. The U-shaped sofa can also be used as a double berth. The boat has a spacious corner pantry at portside as well as a spacious forepeak and large aft cabin. There is plenty of storage room throughout the boat. At starboard there is a roomy bathroom with plenty of storage space as well.

Hull and decks are made of hand-laid laminate, a careful hull and deck joinery, heavy bottom beams of laminated longitudinal and transverse beams and laminated bulkheads, which give the hull strength and stability.
