DESCRIPTION OF BAVARIA 34 CRUISER

Bavaria is a well-established boat brand and always builds good cruising boats. The quality is consistently high and this of course also applies to this particular boat. Here, the first owner did not save much in terms of options such as a larger engine, teak decks, micro wave oven, sun shades etc., and second owner has maintained the boat in an exemplary way and even made further upgrades such as new instrumentation, new high spec foresail, new fridge and much more.

In general Bavarias of this era have loads of space and the 34 Cruiser has plenty of storage in thoughtful stowage areas below deck and is very suitable for the family who like to be on board for a long time.

Once downstairs you find a L-shaped pantry to port with good storage in the form of cabinets and drawers for porcelain and dry goods. It features a gas stove with oven, microwave oven, fridge and double hobs. Direct to the aft of the kitchenette is a generously sized double berth with plenty of space and stowage facilities for personal possessions. To starboard you will find the navigation table with equipment such as control panel and vhf as well as the entrance to the generous toilet/bathroom on board.

The salon is centrally located with plenty of space for the entire crew to socialize in very good seating comfort. The forepeak consists of a nice full-length double berth as well as wardrobes and cabinets.

The cockpit is huge with space for the entire crew. This model has been opted with the teak decks, which not only make the boat look great, it also serve as a very safe area for working on deck.

Facts

Length: 10.71 m

Beam: 3.60 m

Draft: 1.9 m

Displacement: 5700 kg

Diesel tank: 150 liters

Water tank: 210 liters

EQUIPMENT
