## DESCRIPTION OF CELESTE 37

---

Award-winning designer Gabriel Heyman designed the Celeste 37 for Friberg's boatbuilding company, which has built a fantastic boat down to the last detail.

To begin with, design, craftsmanship quality and function were more important than profitability. A boat for the connoisseur with high standards.

A boat you should see before you choose something else. A bottom construction was made together with Chalmers University, where they succeeded to create a boat that performs perfectly at 7 as well as 33 knots. The fact that Fribergs Båtbyggeri has left its mark on the boat in terms of interior design and function means that you don't want to leave the boat once you've come on board.

The boat is in very good condition and has always been stored indoors.

A boat that must be seen!

### Facts

Length 11,54

Width 3,60

Weight about 8 tons

Engine 2 Volvo Penta IPS 400 2X300 Hp

### Equipment

Below are some examples of equipment, see PDF file above for complete equipment list
