DESCRIPTION OF CORONET 26 FAMILY

The Coronet 26 Family has been produced in over 200 units and that speaks for itself. Coronet boats have a large active club in Sweden and have almost become a cult.

This boat is well cared for and well maintained. The fact that it has been used very little and stored indoors explains its excellent condition. The engine was replaced in 1991 to a Volvo Penta AD41a with 290 hp and only about 600 engine hours. It has been serviced by an authorized Volvo Penta service annually. This complemented with its Zipwake planing booms fitted in later years makes for a great and economical trip around the bay. In addition, the boat is very well equipped which makes life on board comfortable and enjoyable.

With a hot water shower on the bathing dock, heater, fridge and bow thruster, you can truly enjoy your summer!

Facts

Length 7,97

Width 2,82
