DESCRIPTION OF SWEDEN YACHTS 370

Sweden Yachts 370 from 1998 that has been stored indoors in heated storage during the winter. The yacht is in excellent condition with among other things the topsides in almost pristine condition. The third owner is now selling this exceptional yacht, fully realizing the saying "if you want to buy a really nice second hand "Orust yacht", look in northern Germany".

Sweden Yachts 370 is an example of the absolute pinnacle of the Swedish boatbuilding tradition. Peter Norlin is responsible for the beautiful lines and together with Jens Östman, he designed an absolute gem of a yacht. "Beautiful yachts sail well" are words that come to mind.

The craftsmanship of the woodwork down below is in a class of its own, and the current, third, owners have cared for their yacht in a way that a Sweden Yacht deserves. Sweden Yacht 370 is a fast and comfortable yacht. She moves effortlessly and with graceful movements through the waves. An extensive list of upgrades in recent years, 2020-2021, including a new freshwater system with new stainless steel tanks, new pumps, new faucets and new hoses throughout, new Mastervolt chargers, new Philippi battery management, 500 Ah AGM batteries, new Raymarine navigation electronics with a 12" plotter in the cockpit and a 7" at the navigation station, AIS as well as all usual wind, speed and depth instruments, all in a NMEA 2000 network. Sails from 2017 and 2019. The hull was stripped and got a new epoxy treatment and new anti-fouling in 2020 and the standing rigging was renewed the same year.

Sweden Yachts 370 is a superb yacht and this example is among, if not the, finest on the market. A lovely yacht!
