DESCRIPTION OF HALLBERG-RASSY 34

The Hallberg-Rassy 34, is a bit of a stroke of genius. Besides being a very real and spacious 34-foot boat with all the seaworthiness and functionality that we associate with Hallberg-Rassy, the boat is really fast and stiff during sailing. A well-functioning quality boat for both archipelago and open seas, if it should be.

Hallberg-Rassy 34, was in many ways the trendsetter for Hallberg-Rassy's future aft cockpit boats, which today form a whole family of boats on its own ranging from 31-feet to now 41-feet. The lines were designed by German Frers, and provide hull lines which are beautiful to look at, with wide beam where it counts and with a narrow fore ship, which result in good speed and seagoing abilities.

The hull is incredibly spacious. This, together with a typical HR well-thought-through floor plan, results in a very well-functioning layout with two separate cabins, a large salon, spacious pantry and a toilet with plenty of space located in just the right place in the boat.

The cockpit is of course convenient and spacious and well protected by the typical Hallberg-Rassy windshield with sprayhood attached. With the tiller version, the cockpit becomes both more practical and spacious both during sailing and in port.

This copy is from 2001 and has had two owners. The boat is in the Scandinavia version and is very well maintained. A boat that is really Swedish boatbuilder heritage. Highest quality, well thought through, and very well-functioning being along our coasts, or if you want to extend into longer journeys. Here is an opportunity to get your hands on a very nice copy of Hallberg Rassy's trendsetter for regatta, touring and/or serious sailing.
