DESCRIPTION OF DELTA 40 SW

The Delta 40 SW was launched in 2011 as the successor to the best-selling 34 SW. The new 40 model has a long-awaited third cabin. The letters SW in the model name stand for Side Walk, a clever solution where the whole cab is shifted slightly towards the port side, allowing space for a covering board on the starboard side that is wide enough to provide easy access across the boat. You can easily get onto the covering board from the driver's seat through a sliding door. The boat is full of well-designed solutions. Another example is the Delta's unique step bottom which makes the hull unbelievably easy to drive at high speeds, contributing to low fuel consumption.

The boat has a large aft deck and a spacious bathing platform at the far aft. When you step in through the sliding door, there is access down to the aft cabin on the port side and the longitudinal galley on the starboard side. There is also a spacious salon with a U-shaped sofa. Part of the sofa backrest can be folded back to create a passenger sofa. From the driver's seat there are good views at all angles. Downstairs from the salon is the fore cabin, a mid-ship cabin for two people, and a toilet with a shower. All the details are well made and the boat has a high finish throughout. A striking number of stowage areas have been created in cabinets, under flooring, etc.

This specimen is well maintained with only 300 hours of use. It has been stored indoors in a heated room. Get in touch to book a personal tour!

DATA

Length: 12,50 m

Beam: 3,460 m

Deplacement: 6500 kg

Engine: 2 x Volvo Penta D4-300
Engine hours: ca 300 h
Fuel tank: 600 l
Cabins: 3

Equipment
For the full equipment list, see the PDF file above. Some examples:
Sleipner bow thruster 5.5 hp
Anchor windlass in stern with remote control
Raymarine radar
Gas stove
Refrigerator
Microwave oven
Eberspächer diesel heater
Water heater
Searchlight with joystick
